FUNDRAISING

Who we are:

VEX ROBOTICS PROGRAM

We are an **award-winning Robotics organization** consisting of 6th-10th grade home educated students currently in our second season of competition. Our High School Team, **Tyrannosaurus Vex**, took home multiple awards last year, and finished 12th (out of 60 teams) at the Minnesota State VEX Tournament. This year, we've added a new Middle School Team, **Tricerabots**. We're looking forward to continuing our work in STEM, team-building, presentation skills, and problem solving. The teams are coached by three State VEX champions who have also participated in WORLD's VEX competition.

What we are seeking:

We are seeking to raise \$5,000.00 to cover the cost of:

- Robotics Parts
- Registration and Tournament fees
- Field Game Elements
- Misc. Team Costs

Levels of Involvement:

Bronze Level	\$100-\$499	Name and logo on our website and on our table display.
Silver Level	\$500-\$999	Larger name and logo on our website and on our table display.
Gold Level	\$1,000+	Larger Name and logo on website, table display, and robot

Please make check payable to Homebot Robotics
