FUNDRAISING

Who we are:

VEX ROBOTICS PROGRAM

We are an award-winning Christian Robotics organization consisting of 6th-12th grade home educated students currently in our fourth season of competition. Both our A-team, **Tyrannosaurus Vex**, and B-Team, **Tricerabots**, took home multiple awards in the 2023-2024 season, and competed at the Minnesota State VEX Tournament. This year we've added a new C-Team—**Pteradaxles**! Three of our teams' coaches are State VEX champions who have also participated in World's VEX competition. We're looking forward to continuing our work in STEM, team-building, presentation skills, and problem solving.

What we are seeking:

We are seeking to raise \$10,000.00 to cover the cost of:

- Robotics Parts
- Registration and Tournament fees
- Field Game Elements
- Misc. Team Costs

Levels of Involvement:

Bronze Level	\$100-\$499	Name and logo on our website, Facebook page, and table display.
Silver Level	\$500-\$999	Larger name and logo on our website, Facebook page, and table display.
Gold Level	\$1,000+	Larger name and logo on website, Facebook page, table display, and robot.

Please make check payable to Homebot Robotics

Thank you for supporting Homebot Robotics!
